All Tubing Available in: GALVANIZED

Specifications for Polyester and Polyolefin Elastomer Powder Coating per ASTM F1043

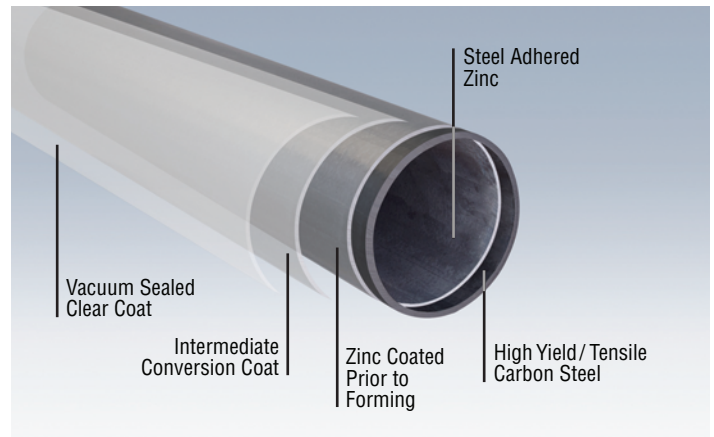

Polyester *Thickness:* 3 mils
Adhesion: Compliance with cross hatch test ASTM D3359-B
Color: ASTM F934
Gloss: (60°) 60 - 70, ASTM D523

Polyolefin *Thickness:* 10mils
Pencil Hardness: 2H, ASTM D3363
Impact: 160+ Inch Pounds, ASTM D2794
Color: ASTM F943,
Adhesion: Compliance to ASTM F1043 8.1.2.1
Weathering: Weatherometer 1000 hours, ASTM D1499

US Premier Tube Mills quality ensures that all fence framework meets and exceeds ASTM F1043

PT40 and PT 30 framework meets and exceeds ASTM F1043
“Standard Specification for Strength and Protective Coatings on Steel Industrial Chain Link Fence Framework”

- US Premier Tube Mills’ 3 mil Polyester and 10 mil Polyolefin Powder Coat meets or exceeds the coating requirements of ASTM F1043 “Standard Specification for Strength and Protective Coatings on Steel Industrial Chain Link Fence Framework”.
- Our Polyester and Polyolefin Powder Coat - Brown, Green and Black colors are in compliance with ASTM F934 “Standard Specification for Standard Colors for Polymer-Coated Chain Link Fence Material”.
- Powder Coat Color is available on our PT 40, PT 30, PT 20, PT 15 and all other tubing we supply.
