

We manufacture our fully-galvanized products in a variety of gauges, diameters, and lengths (40'+) to meet demanding industry standards and superior corrosion resistance. PT 40 is also available with swaged top rail.

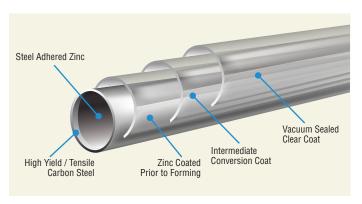

PT 40	High Strength Pipe for Commercial, Industrial and High Security	
PT 20	Light Commercial and Industrial	
PT 15	Light Commercial and Residential	
PTR Residential	Ornamental and Residential	
PTS Squares	Ornamental and Specialty Fencing	
PTC Color	Color Coated Rounds and Shapes	

You'll find our tubing in:

- Chain Link Fences
- Temporary Fencing
- Livestock / Dairy
- Cart Corrals
- Gates
- Kennels
- Solar Fencing

## All Tubing Available in: GALVANIZED

All Tobility Available III. VALVAITIZED						
POLYESTER	Brown	n Black Green				
POLYOLEFIN	Brown	n Black Green				
Compliance Specific	ations for Polye	ester and Polyolefin Elastomer Powder Coating per ASTM F1043				
Polyester	Thickness:	3 mils				
	Adhesion:	Compliance with Cross Hatch Test ASTM D3359-B				
	Color:	ASTM F934				
	Weathering:	ASTM D1499 Weatherometer 1000 hours				
Polyolefin	Thickness:	10mils				
	Adhesion:	Compliance to ASTM F1043 8.1.2.1				
	Color:	ASTM F934				

US Premier Tube Mills 3 mil Polyester and 10 mil Polyolefin Powder Coat meets or exceeds the coating requirements of ASTM F1043 "Standard Specification for Strength and Protective Coatings on Steel Industrial Chain Link Fence Framework".

Weathering: ASTM D1499 Weatherometer 1000 hours

- Our Polyester and Polyolefin Powder Coat Brown, Green and Black colors are in compliance with ASTM F934 "Standard Specification for Standard Colors for Polymer-Coated Chain Link Fence Material".
- Powder Coat Color is available on our PT 40, PT 20, PT 15 and all other tubing we supply.

USPTM quality ensures that all fence framework meets and exceeds ASTM F1043.

PT40 framework meets and exceeds ASTM F1043 "Standard Specification for Strength and Protective Coatings on Steel Industrial Chain Link Fence Framework".
